

PUBLIC COMMENT – JEAN PUBLIC

Subject: Fwd: why cant american publicx know how many illegal immigrants are fleecing the usa taxpayers

now how many illegal immigrants are fleecing the usa taxpayers

one has to wonder why you were not able to come up during trmps term in office with where our illegal immigrants are leaching on america. i find your failure to complete the taks of census that was given to you a direct violation of authority and wojnder at your incompetence and intransigence in not completeing the work assignment of telling americanw where they have millions of illegal immigrant traipsing around america in violation of our laws. they are in violation of our laws to be here. you shoudl be supportive of enforcing american laws instead of aiding and abetting violators of our laws. ou are cog in the wheel of causing america to go down down down into the shitholes of hell and causing america to be overrun and such actions as you did are in fact traitorous imo. we all need to know what is happening to our country and this failure to indiccate who has a right to be here adn who has violated all our rights by being here is a sore point for the majority of americans, except those who make money on the violation of our laws. you aided and abetted them. this commetn is for the public record. please receipt. jean publiee
